

TORNADO IN TEXAS WROUGHT HAVOC

STORM DEMOLISHES EVERY- THING IN ITS PATH.

Buildings Literally Torn Into Pieces and Many Thought to Have Been Injured Near Sherman—Relief Parties Start Out to Render Assistance to the Sufferers.

Sherman, Texas, Oct. 29.—Wednesday afternoon at 5:45 o'clock a well-defined tornado formed in Squirrel Creek Bottom, four miles west of the village of Farmington and about ten miles west of this city.

Parties who saw it in its inception say that out of a seething, tumbling mass of ink clouds a funnel-shaped column descended until it touched the earth, and then it began to move north-eastward, accompanied by the usual terrific crash and roar as it tore through the bottoms, uprooting large trees and demolishing everything in its path, which for the first mile or two was thirty or forty yards in width.

The first house it is known to have struck was on the George Duke farm, one mile west of Howe and about five miles from the starting point. No one was hurt at this place. From this point until it struck the Jim Farris farm, two miles south of the city. It is known to have risen and descended several times, and what damage it did has not been ascertained.

At the Farris place a tenant hut occupied by a family named Hayes was literally torn to pieces, and every member of the family was more or less injured. Hayes is thought to be fatally hurt.

The path of the storm lay at least a mile and a half east of the city, but the cloudburst which accompanied it was furious in the eastern suburbs of the city. The houses as far down as Cleveland avenue are mud-bespattered the same as was the case during the great storm of May 5.

At 8 p. m. a call was received from the vicinity of the Farris place for assistance from the city, asking for searching parties with lanterns. A large number responded. Great crowds are congregating all over the city anxiously awaiting their return. Physicians have gone to the assistance of the Hayes family, and a score or more have placed themselves in readiness to answer summons if it is found that any number of persons have been hurt, which at this hour seems improbable on account of the narrowness of the path and the frequent leaps into the air.

LADY SOMERSET AS SURETY.

Sends Word to Ellis Island That She Will Vouch for Armenians.

New York, Oct. 29.—Lady Henry Somerset Wednesday cabled as follows to Assistant Commissioner of Immigration McSweeney at Ellis Island: "I make the declaration that I will give my personal in case any of the Armenians who arrived on the Obedon or California are likely to become public charges. I will be answerable for the removal from the United States of such persons."

Commissioners Senner and McSweeney have arranged with Mrs. Fessenden of the Woman's Christian Temperance union of Massachusetts to admit 100 of the 275 Armenian immigrants on bonds, procured by Mrs. Fessenden in Boston, that the immigrants shall not become public charges.

Whitney Corrects a Mistake.

New York, Oct. 29.—It has been asserted here recently that William C. Whitney, while at the Chicago convention, proposed that a plank be inserted in the platform favoring the calling of a conference to bring about international agreement on bimetalism, and in the event of that effort failing within a year, for the United States to undertake alone the free coinage of silver at 16 to 1. Mr. Whitney, when seen, said: "I did propose to the committee on resolutions that we favor international bimetalism, but I never said I would give my sanction to a plank proposing free coinage at 16 to 1 within a year's time. I am now, and was then, unalterably opposed to our going in alone and coining silver at 16 to 1."

DREIBUND IS SHAKEN.

Bismarck's Revelations on the Russo-German Alliance.

London, Oct. 29.—Prince Bismarck's disclosure of the existence of the Russo-German entente during the last years of his tenure of office has had a very startling and disturbing effect both in Berlin and Vienna, to say nothing of Paris, and the eruption is regarded as periling the Dreibund. A feeling of distrust has been aroused between the allies, and doubts are expressed in some quarters as to whether the Dreibund will be renewed in 1897.

A special dispatch from Berlin says that the German government is thinking of prosecuting the Hamburger Nachrichten and "those by who it is inspired," evidently referring to the ex-chancellor.

Berlin, Oct. 29.—Public opinion generally in Germany condemns Prince Bismarck's revelations in the Hamburger Nachrichten, regarding the alliance between Russia and Germany which existed during the last years of his chancellorship, and allusions are made to his "indiscreet loquacity, which is gradually tarnishing his glorious reputation." There is little doubt that the prince has divulged important state secrets in his attempt to triumph over his successor, General Count von Caprivi.

The conclusion reached is that the middlemen or first ward agents, who have grown rich in the booking of immigrants, must go, and hereafter the railroad companies, both east and west, will co-operate with the steamship companies in the handling of the business.

Washington, Oct. 29.—The horses attached to the president's victoria, which contained Mrs. Cleveland and a friend, became frightened Wednesday at the large iron derrick in front of the treasury building. Ardmore, I. T., Oct. 29.—J. H. Embree, a Lebanon farmer, was shot and killed Wednesday morning just outside Marinetta, twenty miles south of here, by one of two outlaws, who stopped Embree and a neighbor on the roadway. THOUSANDS SING ON M'KINLEY'S LAWN WHILE BRYAN CIRCULATES IN CHICAGO

MAJOR M'KINLEY ADDRESSES CANTON CITIZENS.

Thousands of Fellow-Townsmen of the Republican Nominee Visit Him at His Home—An All-Day Rally at Terre Haute—General Republican News.

Canton, O., Oct. 29.—Maj. McKinley's home fellow-citizens anticipated him Wednesday when he approached the tariff question at the conclusion of one of his most remarkable addresses. "Three cheers for protection!" interrupted him before he reached his climax. There was a tremor in Maj. McKinley's voice as, after repeated attempts, he responded to the home greetings of thousands of his neighbors and fellow-citizens. For blocks in every direction street cars, trucks, delivery wagons and carriages blocked the streets. The jam of people near the McKinley home backed up on to high-grade yards round about, and formed a vast amphitheater. Doorstep talking was again impossible. An improvised platform at the pavement edge was used. No ovation from any delegation was equalled that from McKinley's fellow-townsmen. They cheered and cheered again. The men's hats went into the air, and women waved handkerchiefs. All ordinary din of bands and drums was lost in the roar of human voices. Business had been almost universally suspended at 4:30 o'clock, to allow all mercantile employers and employees to participate. A score of bands and drum corps in the city volunteered their services, and were distributed in the parade which marched to the McKinley home. This demonstration was the conclusion of an eventful day.

The first call of the day was made by the members of the Canton troop, the men who have been acting as escort to the visitors who have almost daily come to this city. They were cordially received, and a short speech was made to them by Mr. McKinley, who thanked them for the work done. A party of seventy-five women from Wellsville, O., arrived on the regular Pennsylvania train in the morning, with greetings for Maj. McKinley. Owing to the rain, they were taken direct to the tabernacle, where they were introduced to Maj. McKinley by Dr. B. R. Parke. The finest delegation in point of uniform and drill was from Buffalo. It was made up of the republican league of that city, a splendidly organized body. The spokesman for the party was Emory P. Close. Maj. McKinley responded. From the village of Minerva and vicinity, in this county, there came ten car-loads of people full of enthusiasm for McKinley and the republican cause. There were a large number of women in the party, which was greeted by Maj. McKinley in the tabernacle. An extra car was attached in the regular Fort Wayne train from the west which brought farmers, business men and other citizens from the village of Tiro, in Crawford county, Ohio.

Thompson was the principal speaker. It was the only speech he has made in the campaign and he talked for more than an hour. H. L. Remmel, late candidate for governor of Arkansas, followed Col. Mr. Bryan's first address was made at Battery D, to a business men's meeting, at noon. Two hours later he spoke in the same place to an audience composed largely of women. The hall was packed to suffocation on each occasion. After the women's meeting Mr. Bryan went to the stock yards, where he spoke from the Transit house to a large assemblage at 4 o'clock. Thence he returned to the Auditorium, where he took dinner, starting on his speech-making tour of the evening shortly after 6 o'clock. Ten speeches are scheduled for to-day.

During the forenoon Mr. and Mrs. Bryan remained in their hotel, where they were called on by many of the prominent democrats of the state. Many ladies paid their respects to Mrs. Bryan.

The Result of an Oversight.

Washington, Oct. 29.—The delay in the delivery of Mr. Watson's letter of acceptance was the result of an oversight. It is the custom of the city postoffice officials to turn over to the senate postoffice all letters addressed to senators. Letters that are short of the required postage are retained until called for by the messenger. During the absence of the regular senate messenger, a substitute failed to call for letters not properly stamped, and in this way the epistle of the populist candidate for the vice-presidency was allowed to remain undelivered until the regular messenger returned to duty.

DR. ROOKER'S HEAD IN DANGER

Cardinal Sattoli Expected to Secure the Secretary's Removal.

Washington, Oct. 29.—The opinion is freely expressed by ecclesiastics of the Catholic church in Washington that the troubles within the church have not ended with the Bishop Keane incident and that they will soon be renewed at Rome by the parties to the present controversy. It is fully expected by the friends of Dr. Rooker, secretary to the papal delegate, that the forces which brought about Bishop Keane's retirement from the Catholic university will endeavor to secure the retirement of Dr. Rooker, who is a friend of Bishop Keane and of Archbishop Ireland. It is supposed that matters may be pushed to a conclusion one way or the other after Cardinal Sattoli's arrival in Rome.

The expectation is that the names of Dr. Conaty and others proposed for the rectorship of the university will not be considered until the sacred congregation, now in session, reconvenes the second Monday in November, and that the final decision will be made known early in December.

Mgr. Martinielli is confining his attention wholly to the work of the delegation, which is largely of a routine character, and has carefully refrained from any participation in the differences within the church.

He further said that he intended to kill every member of the Dixon family on the ground that young Dixon had wronged his daughter. Sprague is a hay-hauler and is aged 45. Second—There is not a gold standard country in the world today that does not use silver as money along with gold.

Third—There is not a silver standard country in the world today that uses any gold as money along with silver.

Fourth—There is not a silver standard country in the world today that has more than one-third as much money in circulation per capita as the United States has.

Fifth—There is not a silver standard country in the world today where the laboring man receives as fair pay for his day's work.—HON. JOHN G. CARLISLE.

campaign at the rate of a mile a minute. Way down on the edge of the crowd there was a drunken individual who shouted for Bryan and free silver. "Hoorsay for free silver" he would howl.

"I take it my friend," said the speaker finally, "that you are a silver man."

"I am that," howled the man.

"And it seems to me that you're a pretty good object lesson," said the spell-binder. "Judging from your condition the gold cure will do you more good than anything else."

WILL GIVE M'KINLEY 200,000.

The New York Majority As Estimated By J. D. Walsh.

John D. Walsh, Albany correspondent of the New York Press and the man whose predictions came nearest to being verified four years ago writes to M. A. Morehouse of this city, saying:

"If you find time to think about politics it may interest you to know that here in New York we figure on the certain defeat of Bryan. It seems as if the city would go Republican on the issue he raised here. I believe that the state will go at least 200,000 for McKinley."

THEY SPOKE TO MONROE FOLK

Colonel H. I. Weed and Wilson Lane Make Popocratic Speeches.

The Monroe Journal in speaking of the speeches made by Colonel H. I. Weed, of Oshkosh, and Wilson Lane, of this city, at that place, says:

"Mr. Weed's address was respectful and courteous, and his manner and style of delivery while not earnest, is pleasing. His speech was in line with all the democratic speeches—arraying labor against capital, appealing to the prejudices of the people. * * * Mr. Lane, the second speaker—well—we always make it a point not to speak ill of any one if we cannot say anything good of them."

Merit Talks

"Merit talks" the intrinsic value of Hood's Sarsaparilla. Merit in medicine means the power to cure. Hood's Sarsaparilla possesses actual and unequalled curative power and therefore it has true merit. When you buy Hood's Sarsaparilla, and take it according to directions, to purify your blood, or cure any of the many blood diseases, you are morally certain to receive benefit. The power to cure is there. You are not trying an experiment. It will make your blood pure, rich and nourishing, and thus drive out the germs of disease, strengthen the nerves and build up the whole system.

Severe Case of Dyspepsia

"I suffered from dyspepsia 20 years. I had a feeling as though there was a lump in my stomach. I did not dare to eat meat or warm bread, very few vegetables, for fear of the great distress food caused me. I experienced relief right after commencing to take Hood's Sarsaparilla. My appetite increased, I gained in general health and strength. I can eat almost anything now without discomfort. Although I had been an invalid for twenty years, I can truthfully say that I am better than for a long time. I never weighed so much in my life." MRS. EMILY F. BUMP, 45 Portland Street, Middleboro, Mass.

Our Business in Cloaks Is Phenomenal.

What a clever word "best" is, anyway. So short and conveys so much meaning. What meaning does it convey to you when applied to winter garments? Whatever it is you will find it exemplified in our stock, and perhaps some 'best' points that you didn't think of besides. It matters not what price you want to pay for a jacket or cape, we can suit you. New things every day. In order to be able to do such a tremendous amount of winter garment selling it is necessary to have the right kind of styles, and variety large enough to suit all who come. Handsome double Capes at \$5, in black and two toned cloths, fur and braid trimmed. Excellent, nobby Jackets at \$6.50, \$7.00, \$8.00—that ought to be much more.

A Great Many people are not prepared to put very much into a winter garment, and we have made unusually large preparations this fall to have styles to fit everybody's purse, and the consequence is:—Few women who see our creations leave the store without buying. There are many, trashy, worthless things in the market, that can be offered at very small figures; and some people who judge by price alone buy such garments. Be critical about quality, be not fooled by a small price. We fight shy of shoddy cloaks, and give good values.

OUR COAL is therefore fresh and clean and there is life in it. Our prices are living prices and have been shaved to the needs of the public by purchasing at first hands. Our coal is under shelter and well screened.

A man may dress as well as his own good judgement and the assistance of an artistic tailor may elect. He may take his "tuba" but if his digestive organs are out of order, he will have an unwholesome appearance. His complexion and the white of his eyes will have a yellowish cast. His tongue will be coated, appetite poor, his teeth rusty, his breath abominable. He is one big, unmistakable sign of constipation. The quickest, surest, easiest way is to take Doctor Pierce's Pleasant Pellets. They are made of refined, concentrated vegetable extracts. Nothing in the least harmful enters into their composition. They hunt down all impurities, and "make them move on." They are the product of many years' study and practice. Doctor Pierce cannot afford to put forth a worthless article. Send for a free sample.

THREE POINTS FOR WORKINGMEN.

Wages, Steady Work and Living Expenses Must All Be Considered.

The workingman's well-being depends upon three factors—money, wages, low cost of living, and constancy of employment. His true policy is to seek that combination of these three factors which will yield him the maximum result in the way of happiness. The "reality" in the present situation is the cost of living. It is beyond reasonable doubt, also, that in an era of falling prices wages have not fallen. Free silver will assuredly increase the cost of living faster than it will send up wages. It is at least doubtful whether it will increase the constancy of employment. The conclusion seems unavoidable that the workingman in voting for free silver is sacrificing two great elements of prosperity and well-being for a poor chance of gaining the third. It is inconceivable how the gospel of high prices, so attractive to the debtor and the speculator, can deceive the man whose well being consists in what wages will buy.

They are so little you hardly know you are taking them. They catch you griping, yet they act quickly and most thoroughly. Such are the famous Little Pills known as DeWitt's Little Early Risers. Small in size, great in results. C. D. Stevens.

HOT SHOT FOR THE POPOCRATS

Clinton Man Writes Concerning The Famous "Financial News Forgery."

The Clinton Banner, a prohibition-free silver paper recently printed the "Financial News forgery," which calls forth the following communication to the Clinton Herald:

"MR. EDITOR: The appearance of an article in Saturday's Banner purporting to be taken from the London Financial News on March 10, would indicate we had a Bip Van Winkle in our midst. That article has been going the rounds of the silver organs for the last six months, and has been exposed time and again as a forgery. Bryan himself leaves it out of his little speech of re-iteration. Common sense would dictate the absurdity of such a letter from a statesman, or anyone of ordinary intelligence.

"Does England fear Mexico or China or South America as competitors in the markets of the world? Pahaw! The whole demagogic campaign is a tissue of lies and fraud to cover up the damnable selfishness of the Wilson-Gorman tariff. Ask the farmers why they get low prices for their barley and other products of the farm.

"Ask them how the competition of Canada affects all the border states on the line of the Great Lakes and the St. Lawrence. Have they not found the Canada products ahead of them and underbidding them in the markets? Even in the Janesville market the farmer's barley has to compete with the Canadian product. 'You may fool some of the people some of the time, but you can't fool all of the people all of the time.'

"The majority of intelligent farmers, democratic or not, will vote for sound money and the true bimetalism, not the Bryanite perversion, but the present party of all our money and protection to American labor and reciprocity. The great cry of Bryan and the popocrats is that England is dictating our financial policy. These same men are the ones who foisted upon us England's free trade policy, to our sorrow and great detriment.

BIMETALLIST.

WHAT BRYAN IS DOING.

Mr. Bryan, from the very beginning of his candidacy has endeavored to array the forces of the workingmen against their employers. In so doing he is actually arraying the workingmen against themselves. He proposes to increase the prices upon their necessities without enlarging the purchasing power of their labor. He endeavors to convince them that it is possible to transmute 50 cents of silver into 100 cents of gold, and that they will be the gainers by the transaction, but he omits to add that the 50 cents worth of labor of today cannot be given the 100 cent value he claims for it by any other law than that of necessity—the need for labor and not of it. His platform is that of passion and prejudice, two attributes that have never gained bread for their possessors and his appeal for their use is a direct assault upon the intelligence and self interest of the community.

HOW EMPLOYEES WOULD GAIN.

The most honest free silver paper in the West is the "Mining Industry Review" of Denver. The Review warns manufacturers that the tremendous advantage possessed by the countries which pay their wages in silver, or "cheap money," can be successfully met only by making silver the standard for America, or, in other words, by cutting American wages to meet the competition of the East.
And workingmen are asked to vote for such a policy!

DO WAGES GO TOO FAR?

One of Mr. Bryan's most fervid supporters, the Detroit Tribune, says: "It is true that under an era of higher prices fixed salaries will not go so far as now; but now they go too far, and their purchasing power ought to be reduced. These salaries were mostly established before the hard times set in, and now represent vastly more than was intended when the salaries were created."

Does Mr. Bryan believe that wages will not be affected just like salaries? Does he believe that "their purchasing power ought to be reduced?"

GEMS FROM MCKINLEY.

Words of a Statesman—Democracy and the Farmer.

No one suffers so much from cheap money as the farmers and laborers. They are the first to feel its bad effects and the last to recover from them. This has been the uniform experience of all countries, and here, as elsewhere, the poor and not the rich are the greater sufferers from every attempt to debase our currency.
It would fall with alarming severity upon investments already made; upon insurance companies and their policy holders; upon savings banks and their depositors; upon building and loan associations and their members; upon the savings of thrift; upon pensioners and their families, and upon wage-earners and the purchasing power of their wages.

We cannot restore public confidence by an act which would revolutionize all values, or an act which entails a deficiency in the public revenues. We cannot inspire confidence by advocating repudiation or practicing dishonesty. We cannot restore confidence, either to the treasury or to the people, without a change in our present tariff legislation.

Since the passage of the Wilson-Gorman tariff bill, work at home has been diminished; prices of agricultural products have fallen; confidence has been arrested, and general business demoralization is seen on every hand.

The decrease in our exports of American products and manufactures during the first fifteen months of the present tariff, as contrasted with the exports of the first fifteen months of the tariff of 1890, was \$220,353,320.

The excess of exports over imports during the first fifteen months of the tariff of 1890 was \$213,972,968, but only \$55,758,623 under the first fifteen months of the tariff of 1894, a loss under the latter of \$157,214,345.

Sample of Bryan's Humbuggery.

Bryan was so pleased with what he was saying last week to the farmers around Fredericksburg, Va., that he went on to say:

"People can have just as good a dollar as they want, because dollars are creatures of law (not their value), and you can determine the purchasing power of a dollar when you determine the number of dollars (when you determine the value of the bullion in a silver dollar). If you want dollars dear make them scarce, and they will be dear. If our dollars are not good enough now, when a dollar will buy ten bushels of oats, you can make it good enough, so good that it will buy one hundred bushels of oats. (A voice: "We don't want that kind of a dollar.") If anybody here has been raising farm products and complaining because they are not cheap enough, you can make them cheaper if you vote the republican ticket this fall."

Bryan did not stop to explain how the actual value of their farm products would be increased by taking their pay in half-value money. He did not show the farmers how they would be better off by getting two 50-cent dollars for a certain quantity of product than one 100-cent dollar for the same amount of crop. Why did he not? Because he could not. What, then, is he talking about? He is prating humbug to deceive them and gull them out of their votes. That is his game. If a dollar of 23 1-5 grains of gold buys ten bushels of oats how many bushels will one of Bryan's 37 1/4 grains of free silver dollars buy? Answer: Five. In what way will Bryan's kind of 50-cent dollars better the condition of a farmer? Answer: Let him sell 100 bushels of oats for twenty of Bryan's half-value dollars and tender them to a farming neighbor from whom he had borrowed a twenty-dollar gold piece, called a double eagle. He would thereby pay off twice as much debt as the money was worth, and by the transaction he would clear ten dollars.

But who would lose the ten dollars he had gained by the sharp trick?

Why, the farmer from whom he had borrowed the money. What effect would the swindle have on his credit? It would kill his credit as far around the country as the news of the swindle had spread. He would be looked upon as a cheat and a swindler by everybody who knew him. Farmers as a rule believe in the doctrine that honesty is the best policy.

A Costly Experiment.

Nearly six months would pass before he could be inaugurated, and six months before the proposed silver legislation could become a law. During that time creditors would seek to protect themselves against being paid in depreciated money; every obligation that was due would be enforced; depositors in banks would withdraw their money; creditor merchants would force collections, to avoid receiving depreciated dollars, and the great volume of business conducted on credit would cease; manufacturers would close until the value of the new dollar could be settled; business houses would fail, and the unemployed would be numbered by millions; farmers would find new purchasers for their products, and everybody from the banker to the laborer, would suffer, and the latter the most of all. While the country would survive it and business interests ultimately adjust themselves to the new conditions, it is a terrible price to pay for an experiment, and business men, without regard to party, should contribute both means and efforts to prevent such a catastrophe. The result should the scheme be successful. Here silver agitation would cease and confidence and prosperity return; otherwise we may drag along with an indefinite period of agitation, hesitation and distrust.

No Class Divisions or Prejudice.

My countrymen; any man who seeks to stir up sectionalism or incite class prejudice in this great land of liberty, equality and law, ought to be driven out of the country to the tune of the Rogue's March. Such men are not true friends of the laboring class. Not under the red flag, but under the stars and stripes are labor's victories to be won. Not by tearing down, but by building up, can the common people share in the blessings of American civilization. It is the same old appeal. Four years ago the same men said to you that the republican party is the party of the manufacturer, making him rich at the expense of the men who toil, and, swept away by their appeals to prejudice, you, the people, with your strong arms pulled down the pillars of American manufacturing. You drove the American manufacturer from business; compelled him to hoard his capital, to retire from gainful pursuit; but when the American factory fell, who were those crushed in the dust beneath it? The thousands who can never rise until the American factory is up again. There is one master builder in the United States who can restore the American factories, who can open the doors, start the machinery. You know his name; you know for what he stands; you know his true Americanism, you know he is your friend, the friend of all that is honest and true and patriotic and worthy. Every mighty wheel that still goes round, every spindle that still sings, every chimney that yet roars, every whistle that continues to scream, voices his name; listen, and you will hear it wherever machinery moves; watch, and you will see it glow in every furnace flame; that name is the open sesame to American opportunity and American prosperity—it is the name of the next president of the United States, William McKinley.

Episcopal Missionary Society.

Cincinnati, O., Oct. 29.—The missionary council of the Episcopal church was largely attended Wednesday, the representation being full. Papers were read by several clergymen. A few facts from the report on the women's auxiliary were announced. Among them was the statement that its collections in the last twenty-five years for missions aggregated \$5,153,179; also that the collections last year were \$56,198.

Louisville Hears Carlisle.

Louisville, Ky., Oct. 29.—This stronghold of the Kentucky gold standard democracy fairly outdid itself Wednesday in honor of Secretary Carlisle. No larger crowd has turned out here during this campaign and no more brilliant gathering has greeted any speaker in Louisville. The applause was almost equalled when in the course of his address the secretary mentioned abruptly the name of President Cleveland.

"WORN OUT."

A COMMON EXPRESSION USED BY AMERICAN WOMEN.

Many do not Realize the Full Significance of Those Two Words.

When a woman is nervous and irritable, head and back ache, feels tired all the time, loses sleep and appetite, has pains in groins, bearing-down sensation, whites and irregularities, she is not "worn out," but feels as if she were.

Such symptoms tell her

The experience and testimony of some of the most noted women of America, go to prove beyond a question that Lydia E. Pinkham's Vegetable Compound will correct all such trouble at once by removing the cause and restoring the organs to a healthy and normal condition. If in doubt, write Mrs. Pinkham, at Lynn, Mass., as thousands of women do.

Here is a lady who says:—

"Let me add my name to your list of testimonials. For years I suffered with such a weakness of the back I could not stand straight. I had terrible pains in my womb. The doctor said an operation must be performed, as there was no other way to be cured. I was afraid to have the operation performed, and kept trying the medicines that I saw advertised. At last I tried yours. After taking three bottles I felt like a new woman. I recommend it to every woman, and cannot praise it enough, for it saved me from the surgeon's knife."—MRS. The Registration By Wards

The registration by wards is as fol-
lows:

First Ward.....	852
Second Ward.....	828
Third Ward.....	872
Fourth Ward.....	1,087
Fifth Ward.....	626
Total.....	3,965

Great Gains Shown.

The registry, this year, is a very large one, and shows that Janesville is growing in spite of the hard times. When boards of registration closed their labors last night the books contained 3,965 names of male voters. The total vote for governor in 1894 was 2,993, showing that on the registry books 1,072 more names than there were voters in 1894. The census estimates one voter, to a family of five and according to this calculation there are practically 19,805 people in the city of Janesville against 14,465 two years ago, or a gain of 5,340 in the two years past.

By a glance at the registry figures it will be seen that there are 1,470 voters on the East Side and 2,495 on the West Side. On the East Side in '94 the vote was 1,133 and the registry yesterday was 1,470 a gain of 337. On the West Side the vote in '94 was 1,760 and the registration books for this year show 2,495, a gain of 735.

The Vote of 1894.

The following table shows the vote for governor in 1894:

	Rep.	Dem.	Pro.	Totl
1st pre. 1st ward.....	121	109	9	239
2d pre. 1st ward.....	255	90	6	351
1st pre. 2d ward.....	102	92	3	197
2d pre. 2d ward.....	170	128	9	307
1st pre. 3d ward.....	229	113	2	344
2d pre. 3d ward.....	182	75	10	267
1st pre. 4th ward.....	151	183	4	338
2d pre. 4th ward.....	162	238	9	410
Fifth ward.....	140	235	8	383

Totals..... 1521 1363 60 49 3965

These figures will be found to be substantially correct. The number of names placed on the corrected list for the Fifth ward, is estimated at 29, as up to noon the official book had not been filed. The percentage of increase in the other wards gives that proportion for the Fifth, and it will probably be but slightly changed.

MOTHER FORCED TO GIVE UP BABES

Poverty Compels Her To Send Them to a Milwaukee Home.

The Rev. William Woodmansee, of the Children's Home Society of Milwaukee, was in the city yesterday on rather a sad mission. The case was one where a wife was left with two small children by a cruel husband, who has left for parts unknown. The woman and her children reside north of this city. Rev. Mr. Woodmansee's visit was for the purpose of taking the children, at the request of the mother, to the Milwaukee home. Later on they will be placed in families where they will be cared for. The mother grieved to see her little ones go, but stern necessity compelled her to take the step, much as she disliked to be separated from them.

ROCKFORD MEN COMING

Flambeau Club, Traveling Men's Club, Band and Citizens are to Be Here.

A big crowd of Rockford people will help Janesville sound money faces celebrate next Monday night.

A telephone message to The Gazette from Ed Keeler, the Forest City lumber man, this afternoon, was to the effect that the Rockford Commercial Travelers' club, the Rockford Flambeau club, and the big thirty-six piece band, beside 150 or 200 citizens would be here to take part in the celebration.

FLAG RAISING DREW 5,000 PEOPLE

Immense Throng Saw Old Glory Hoisted Over the C. & N. W. Shops.

Railroad men set a high water mark at their flag raising.

All the way from 4,000 to 6,000, the crowd was estimated at.

Every roof, every car, every inch of standing room, every lumber pile seemed to have been reserved.

Foreman Whalen and his right hand man, E. G. Harlow, had a right to feel happy over the tremendous demonstration.

A brief review of the exercises was given by The Gazette last evening. Many details were omitted, necessarily, however, on account of the lateness of the hour.

Master Mechanic John Heath, of Chicago, presided. Rev. Dr. Hodges offered prayer, and E. O. Kimberly led the singing. Miss Sophie Weisend acted as accompanist. In the unfolding of the flag the original programme was not followed.

Mrs. A. P. Lovejoy had been chosen but resigned in favor of Mrs. Laurette Ransom Goodrich, actually a Daughter of the American Revolution. Mrs. Goodrich laid her hand on the halyard and the great flag broke from its folds and spread to the breeze. The G. A. R. sainte was fired with the G. A. R., the W. E. C. and the Light Infantry lined up about the square. The benediction was pronounced by Rev. Father Condon.

Great enthusiasm was evoked by Captain Pliny Norcross' speech. Captain Norcross sketched briefly the history of the American flag—how it floated first over Washington's headquarters in January, 1777, how it was first carried on the sea by Paul Jones' gallant privateer, the Ranger, and how for 120 years it had been an emblem of victory, never in all that time trailed in the dust. In the splendor of the American republic he found a fit parallel for the glory of the flag. He dwelt upon the rights guaranteed to weak and strong alike under red, white and blue—the right to life, liberty and the pursuit of happiness. The pursuit of happiness Captain Norcross insisted, meant to the average man the building up of a home and the enjoyments of the fruits of industry and economy. It was idle to say that the hard working and precedent should divide with the idle and shiftless.

He spoke of the railroad as the civilizing force that had made the marvelous growth of the republic possible and before closing referred to Chairman Heath as a splendid example of what "soulless corporations" do with men who begin in a humble way but give thought and energy and patience to their daily duties.

ALL those indebted to the firm of Becker & Woodruff are requested to pay same at the store which will be open afterwards for that purpose until November 1. After that date accounts go into attorney's hands for collection.

GREAT PROFIT FOR SILVER MEN

Mark Honeysett Learns About Silver Cause in Colorado

Mr. and Mrs. Mark Honeysett have returned from Denver where they spent four weeks very pleasantly. Mr. Honeysett studied the condition of the country closely and had no trouble in discovering the animus of the free coinage movement. A law that made the government buy at a high figure, all the silver produced in Colorado mines would mean more for Colorado than a law compelling the government to buy every pound of Rock county tobacco at thirty cents a pound would mean to Janesville. Mr. Honeysett heard free silver talk sixteen hours out of the twenty-four all the time he was in the west—and came home a more earnest sound money man than ever.

GET THE RETURNS IN YOUR OWN HOME

WISCONSIN TELEPHONE COM- PANY IS LIBERAL.

All Subscribers and Public Gatherings to Be Given Results at Frequent Intervals, Free of Charge—Dispatches to Come By Long Distance Line.

You won't have to leave your house election night to get the returns—if you have a telephone.

The Wisconsin Telephone Company has arranged to send election returns next Tuesday night, and will accomplish what has never before been accomplished, the giving of returns to all its patrons, who will learn the result at their own homes.

The following letter has been received by the local manager, H. C. Willits:

"On election night your office will be furnished returns, received by long distance telephone from headquarters of the National Committees at New York. The results in Wisconsin will be sent you also. Managers are expected to arrange an instrument so that they can quickly take down the results transmitted from Milwaukee, where they are to write out personally upon blank manifolds, to be sent you shortly. The full day force must be on duty to repeat returns to newspapers, committee headquarters, and to all subscribers, at their homes or places of business who desire to receive them. Managers will ascertain if returns are to be given out to the general public at some public hall, when they will arrange with the management to have our bulletins read from the stage. A messenger must then be provided to rush bulletin sheets, as soon as received, to this public hall. Enough manifold sheets should be made to provide one for the messenger and for each operator." Yours truly,

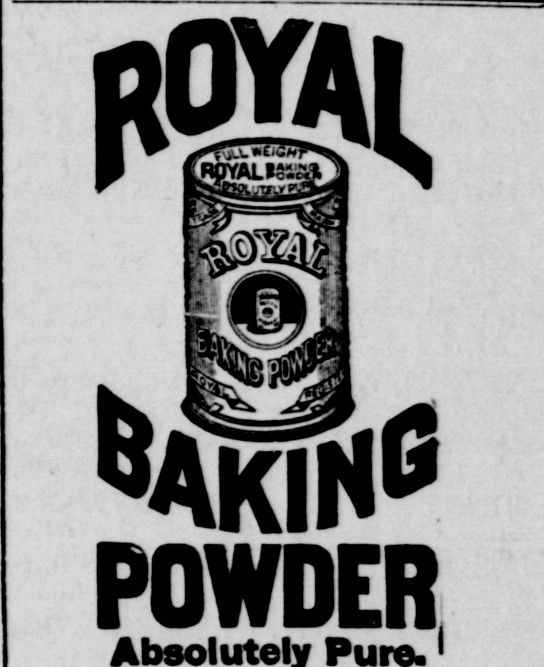

E. B. COTTRILL,

General Superintendent.

ELECTION NOTICE.

OFFICE OF COUNTY CLERK,
October 22, 1896.

TO THE ELECTORS OF ROCK COUNTY:

Notice is hereby given that a general election is to be held in the several towns, wards and election precincts in the county of Rock, on the third day of November, 1896, at which the officers named below are to be chosen. The names of the candidates for each office to be voted for, whose nominations have been certified to this office, are given opposite the name of the office and under the appropriate party or other designation, each in its appropriate column and the question submitted to a vote are stated below;

INFORMATION TO VOTERS.

The following instructions are given for the information and guidance of voters: A voter upon entering the polling place, and giving his name and residence, will receive a ballot from the ballot clerk, which must have endorsed thereon the names and or initials of both ballot clerks, and no other can be used. Upon receiving his ballot, voter must retire, alone to a booth or compartment, and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner who to vote for. The voter, if he wishes to vote for all the candidates nominated by any party, should make a cross mark X, under the party designation printed at the top of the ballot in the square made for that purpose. A ballot so marked, and having no other mark, will be counted for all of the candidates of that party in the column underneath, unless the names of some of the candidates of the party have been erased, and will be counted for all names written in lieu of one erased or pasted over a printed name. If the voter wishes to vote for some of the candidates of different political parties, he should make a cross mark, X after the name of each candidate he does desire to vote for. If he wishes to vote for a person for a certain office, whose name is not on the ballot, he must write the name in the blank space under the printed name of the candidate for the office. The ballot should not be marked in any other manner. If the ballot be spoiled, it must be returned to the ballot clerk, who must issue another in its stead, but not more than three in all to any one voter. Five minutes' time is allowed in booth to mark ballot. Unofficial ballots or memorandum to assist the voter in marking his ballot, can be taken into the booth, and may be used to copy from. The ballot must not be shown so that any other person can see how it has been marked by the voter. After it is marked, it should be folded so that the inside cannot be seen, but so that the printed endorsements and signatures of the ballot clerks may be seen. Then the voter should pass out of the booth, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box, and pass out of the voting place. A voter who declares to the presiding officer, that he is unable to read, or that by reason of physical disability, he is unable to mark his ballot, can have the assistance of one or two election officers in marking the same, to be chosen by the voter. The presiding officer may administer an oath, in his discretion, as to such person's disability. The party designations and candidates for the different offices are as follows:

W. J. MCINTYRE, County Clerk.

If you desire to vote an entire party ticket, make a cross mark in the square under party designation at the head of the ballot. If you desire to vote for all the ticket, except particular persons, erase their names, or mark opposite the names of the candidate you desire to vote for in another column, if it be there, or write in the name you wish to vote for. If you desire to vote for candidates on different tickets, erase the names of the candidates you do not wish to vote for and make a cross (X) opposite and after the name of the candidate you desire to vote for, or write his name in the blank space under the name erased.

THESE "PLUTOCRATS."

ASKING YOU TO VOTE FOR THEIR BENEFIT.

Will You Do It?—The Silver Miners of the West Are Most Interested in Bryan's Success.

The men who are asking you to vote to compel the United States to legislate money into their pockets are now anxiously waiting to see what you will do on election day. For two years they have been silently and insidiously spreading discontent and preaching their false doctrine, to get men in a frame of mind to vote for the free coinage of silver, for their sole benefit.

The fact that it is the silver mine owners who are paying the expenses of Wm. J. Bryan's campaign and that they are doing it to make a market for the product of their mines, has passed beyond the realm of doubt. They are "working" the people of the United States, especially the poor people, by the talk about money sharks, banks and the cry of the "poor against the rich."

This silver trust itself is the most mysterious, secretive, and powerful trust in the world. Its members receive salaries as United States senators and representatives, but their chief business appears to be to legislate for their own mine products, or, when they fail in this, obstruct all legislation until their demands are satisfied.

The stock in the corporations that own silver mines is held partly in this country and partly in Europe. New York holds more than any other city, because the richest silver kings make it their home. Then follow in order San Francisco, Boston, Philadelphia and Chicago. In foreign ownership of this stock England leads, then France and then Holland. The great bonanza mines of Nevada are chiefly held in San Francisco and London. The Ontario, the greatest silver mine in Utah, of which W. R. Hearst is vice-president, is chiefly owned in San Francisco. The Leadville mines are owned partly in the Eastern States and partly in London.

Probably less than 100 men control the silver mines of the country, whose output would be enormously increased by the free coinage of silver. It need not be said that every one of these men is urging the adoption of the "poor man's money," of which he would expect to furnish a large share feeling theirs correct, but all admitting are the names of the chief silver mine owners of the country and an estimate of their wealth.

It is the representatives of these men who are trying to delude and inflame the people by talk about "gold bugs," "money sharks," and "gold conspirators." What about the silver conspirators?

Earn It or Steal It.

It is well for everyone to remember that all the pretty talk about prosperity under the proposed free silver does not promise one something for nothing, unless the speaker is a fraud, or the hearer a fool. Perhaps there are those who have an idea that "free" silver means free distribution, but there are very few that can be made by the orators to believe any such nonsense.

The workingman knows very well that a "cheap" dollar will have to be earned as well as a gold basis dollar, and that just in proportion as it is "cheap," or easily earned, it will be reduced in purchasing power in the grocery or dry goods store. Mr. Vest's glorious money, the Confederate script, was easily earned. A day laborer, when he could get work, might earn a hundred dollars a day, but he had to pay six dollars of the cash for his dinner. Under the reign of the cheap Confederate dollar everybody in the South grew daily poorer. It was the same way in the North just in proportion as the paper currency of that day fell below par with gold. The volunteer in the Federal army getting \$13 a month in greenbacks was in reality getting but \$6.50 when gold was worth 200 per cent, because everything the soldier wanted to buy was doubled in price.

Mr. Powderly, ex-master workman of the Knights of Labor, in his Cooper Union address recently said:

"Per capita circulation is a circulation which does not circulate, and no man can lay fingers on a dollar of that per capita except in one of two ways—honest or dishonest—by labor of some kind or by theft of some kind."

It would be well enough for the wage earner to ask the free silver orator how he, the wage earner, is going to get one of these 50-cent "cheap" dollars if the

free coinage of the cheap stuff should shut up all the factories, stop all building and bankrupt the railroads? And this it will do. There is but one way to make money plentiful in the pockets of the people, and that is to pursue such a financial system as will win the confidence of capital and stimulate business. Will this denunciation of the capitalist, this threatening, this talk against paying interest, this scheme to pay off debts in depreciated currency, stimulate business investments? Is it fair to suppose that the success of the free silver party and the revolutionary platform it represents will build up confidence and stimulate business? The only other way to get plenty of money among the people is, as Mr. Powderly says, to steal it! The Populist platform favors the confiscation of railroad property, and the Populists denounce capital. Would that party in despair of business prosperity, after its success at the polls and the inauguration of the free silver movement, go a step farther and advocate the forcible dispossession of the capitalist?—St. Joseph (Mo.) News.

Bryan's Attack on Wages.

We observe that Mr. Bryan has not explained, either in his stump speeches or in his letter of acceptance, why he thinks that the dollar which the wage-earner receives in pay for his work buys too much for him. Mr. Bryan has declared at Springfield, Ohio, and in other of his speeches, that the trouble with this country is that the purchasing power of our dollar has increased. Now this can be taken to mean only one thing—that our dollar of to-day will buy more than it would buy before. The dollar, therefore, which the wage-earner receives to-day buys more for him than a dollar ever before bought for him. But, says Mr. Bryan, it buys too much.

How Mr. Bryan is going to make the wage-earner desire less for his dollar than he now gets we fail to comprehend. Why Mr. Bryan should believe that our workingmen ought to buy less with their dollars than they now can buy we cannot understand. We like, and the workingman likes, and everybody who takes a pride in this country likes, to have the wage-earner or any other man get as much for his dollar as he honestly can get. If you reduce the purchasing power of the dollar which is paid to our workingman you reduce his wages, because, since the dollar which Mr. Bryan wishes to give him will buy less than the dollar which is paid to him now, the workingman under free coinage will work for less than he now works for. We don't see how this is going to benefit the workingman, since he will be able to eat less and wear less and to save less, because the money which he receives will buy less.

We don't see how this money of a weakened purchasing power can benefit the farmer, because if the wage-earner can buy less then the farmer will be able to sell less. The workingmen of this country are the farmers' best customers. They earn every year about two billion and a half of dollars. This sum establishes the purchasing power of the home market; but Mr. Bryan says that this enormous wage payment of two and a half billions of dollars buys too much. He proposes to reduce its power to buy. He proposes to cut down this purchasing power one-half. It seems very clear to us that if he does this he will diminish by just that much the ability of the wage-earner to buy and pay for farm products for consumption, and that therefore, there being a lessened demand for farm products, the farmer not only will not sell his cereals for what he gets for them now, but he will be able to get much less for them than he now gets.

If we are mistaken about this; if the wage-earner, who objects to having the dollar which he receives buy only one-half of what he now buys, is mistaken in his views; if the farmer, who believes that when the wage-earner buys less the farmer must sell less, is mistaken, will Mr. Bryan explain to us why we are all mistaken? Will he show us why we ought to be glad to have our dollars buy one-half of what they now will buy?—N. Y. Press.

The Wage Earner and the Salary Man.

Some things to think of before you vote next week.

Men who are to vote next week should stop and think over the fact that the declaration of the Chicago platform in favor of the free and unlimited coinage of the world's silver at the ratio of 16 to 1, is especially an important one to wage-earners and those who live on salaries or fixed incomes. This proposed sweeping change in our financial system is a radical departure from the policy long pursued by not only the government of the United States, but also by the governments of all the most enlightened nations in the world. The vital question is how will this radical change in our financial policy affect the hundreds of thousands of those of our people who depend upon wages and salaries? It is very difficult to determine exactly what effect the unlimited coinage of silver at 16 to 1 would have on the country generally for the reason that there appears to be more or less difference of opinion among those who advocate the change as to what the effect would be. But candidate Bryan and the majority of those who support him affirm that the prime object of the 16 to 1 policy is to enhance the price of commodities. Assuming then that such a result would follow free coinage, how would it affect the class whose interest we are now considering? Low prices have not always been regarded as an unmixed evil by those who buy, especially by those whose income is fixed and limited.

Washee Thirteen for Everybody.

Charley Lee, a Chinaman, who keeps a laundry on Straight street, Paterson, N. J., believes in combining business with politics. He has swung to the breeze across the sidewalk in front of his laundry a Chinese flag. On one side of the flag is the inscription: "Vote for McKinley and Hobart." On the other side is this inscription: "Vote for Bryan and Sewall and free silver." Charley has the republican side of the flag facing Park avenue, along which many prominent republicans reside, while the other side of the banner faces houses on lower Straight street, which neighborhood is considered a democratic stronghold. Charley, when asked to define his politics, answered with a twinkle in his eye: "Goldie, silvie, all samee, washee thirteen for all Melicam man."
